

## **BRAIN FOOD**

WORKSHOP IN COLLABORATION OF BIO 26 AND FACULTY OF ARCHITECTURE

Workshop:

**23<sup>th</sup> - 27<sup>th</sup> September, 2019**

Submissions / motivation letter:

**till 18<sup>th</sup> September, 2019**

Collaboration:

**BIO 26 + Fakulteta za arhitekturo UL** (coordination: izr. prof. Anja Planišček)

### **Brain Food**

Be part of a challenge of BIO26 – the Biennial of Design in Ljubljana and join our design-build workshop from 23<sup>th</sup> – 27<sup>th</sup> of September, from 9 a.m. until 7 p.m.!

In collaboration with the Faculty of Architecture (Prof. Anja Planišček) we are building a mobile kitchen as an teaching/learning tool, which will be tested during the 100<sup>th</sup> Anniversary of University of Ljubljana. Students together with our team of international design professionals, consisting of Adrian Judt (Urban Design), Andreja Pogacar (Industrial Design), GeŃiana Dumitraşcu (Architecture) and Simon Platzgummer (Industrial Design) will design and build in a collaborative process the prototype of **Brain Food**. **The workshop will be rewarded with 2ECTS.**

We invite students, who wish to join the workshop and be part of the 15 selected candidates to send a short letter of motivation at [brainfoodbio26@gmail.com](mailto:brainfoodbio26@gmail.com) until Wednesday, the 18<sup>th</sup> of September.

About the project:

**Brain Food** is a nomadic kitchen which becomes a testing ground to rethink educational experiences and inviting students, faculties and academies as well as civic actors to participate. The kitchen will be used as an educational environment and event space by the faculties and will serve as a social hub and informal learning space for the students. It will additionally be programmed with Extracurricular Activities by professors, happenings held by the student councils and a public weekend event for the opening of BIO26 (14.11.2019–.9.2.2020). Hence, this open kitchen allows to negotiate hierarchies of knowledge between students, professors and civil society.
